Hi Jessica – good to hear from you.

I'm on travel this week but back in the office Friday – but I can try to give you a call this PM if I catch a break.

Thanks  
R/v – Dennis

Hi Dennis,

Was hoping that you may be available for a quick chat prior to the public hearing for the Velella Epsilon. I plan to come down to Sarasota for the hearing and can be available earlier if a meeting is possible.

We now have a graduate student from Duke University potentially interested in the protected species data collection aspect of the monitoring plan for Velella. I was curious if I could get a sense of logistics as well as timeline for cage deployment when we meet.

Thank you,  
Jessica Powell
